PROJECTS

MySchool | GitHub | Full Stack Developer
- Collaborated as part of a team with 4 developers to develop a document tracker for parents of homeschooled students
- Deployed the front end via AWS Amplify and backend via Heroku
- Configured Code Climate to ensure adequate application test coverage
- Wrote thorough backend documentation using Markdown
- Utilized Node.js and Express to develop a RESTful API
- Implemented React and CSS-in-JS to develop a single page web application

Conway's Game of Life | GitHub | Full Stack Developer
- Delivered a fully functional web application that provides a visualization of Conway's Game of Life
- Implemented an efficient algorithm that replicated the rules provided
- Prioritized runtime to ensure the application could be adequately scaled
- Extended features required by the specs with additional features that add to the user experience
- Utilized React, CSS-in-JS, and accessible development principles

TECHNICAL EXPERIENCE

Lambda School, Remote **|** Team Lead   March 2020 - Present
- Provide one-on-one feedback and code reviews to a group of 9 students on a regular basis to ensure their success in the agile based curriculum
- Debug code in a larger team of 60+ students to ensure they were able to participate in daily lectures
- Lead daily standup meetings with team of 9 students to facilitate the sharing of progress and solve individual and shared blockers

Freelance Web Content Writer, Remote   October 2016 - March 2020
- Implemented industry-standard strategies to compose relevant content, improving the SEO of various organizations
- Utilized an active and engaged writing style, increasing overall click-through rate for clients in a variety of industries

MANAGERIAL EXPERIENCE

Subway, Burlington, VT **|** Manager   July 2012 - October 2016
- Maintained and thoroughly analyzed business records to decrease cost of goods sold by 10% in one year
- Motivated staff of 10+ to upsell and maximize throughput, resulting in increased profit
